# Increase your sales with a successful marketing mix

BODYMEDIA is one of the leading platforms in the fitness and physio industry in the sector of trade magazines and events. We can help you reach your target audience: Owners, managers and administrators on the operator side. Combined with in-depth research, extensive professional articles on important topics about the industry and a modern layout, our trade magazines BODYMEDIA Fitness and BODYMEDIA Physio are a conveying medium of information.

In addition to our trade magazines, we offer other useful tools for decision-makers, such as our new BODYMEDIA Video-Podcast, the BODYMEDIA App, the digital BODYMEDIA Branchenbuch, the online news format BODYMEDIA News Corner, informative newsletters and Online-Advertorials to name just a few.

Our print and online offerings are complemented by our events. Through our event formats, we bring together the operators of fitness, physiotherapy and healthcare facilities with the industry in a highly effective way. BODYMEDIA is a specialist when it comes to raising the profile of your company and your brand in the fitness, physiotherapy and health industry.

We are looking forward to creating an individual marketing concept for you. For further questions you will find the right contact person at the end of this media kit! Don't hesitate to call us. To conclude, we hope that you will have fun discovering our range of products!

## Advertorial

The BODYMEDIA trade magazines offer you the opportunity to present your company, your products, and services in detail in the form of an advertorial.

An advertorial is the editorial presentation of an advertisement. The number of used images depends on the sent material and the final number of characters. BODYMEDIA is responsible for the entire design and the quantity of text and pictures.

1/1 page, approx. 1,800 characters (incl. spaces) + max. 3-5 images as picture selection, incl. graphic design	2,790 €
2/1 page, approx. 3.6000 characters (incl. spaces) + max. 4-7 images as picture selection, incl. graphic design	4,390 €

## Exhibition offers

### Exhibition highlight (FIBO)

With the presentation like an advertorial, the Exhibition highlight has another big advantage besides the optimal positioning in the Exhibition part of BODYMEDIA Fitness and the free design. Our photographers will come to you and take photos of your booth for the highlight, according to your ideas and wishes. These will then be sent to you and can be used free of charge for your own advertising.

1/2 page horizontal, 1,500 characters (incl. spaces) + max. 2 photos + logo, incl. graphic design	1,990 €
1/1 page, 3,000 characters (inc. spaces) + max. 4 photos + logo, incl. graphic design	2,990 €
2/1 page, 6,000 characters (incl. spaces) + max. 6 photos + logo, incl. graphic design	3,990 €

## FIBO Pre-Report

The FIBO preliminary report in BODYMEDIA Fitness issue 02/25 will draw attention to your participation in the event.

FIBO pre-report, 600 characters (incl. spaces) + 1 product image 390 €

## FIBO Follow-up

Thanks to the FIBO Follow-up report, you will be able to make your participation public in Edition 3/2021 afterwards.

FIBO follow-up, 600 characters (incl. spaces) + 1 product image 390 €

## Inserts

A combination of advertisements paired with meaningful inserts is exceptionally effective. The customer not only looks at your advertising, but rather keeps it directly in his hands.

## Mailing cover sheet

The name of the addressee is printed on the mailing cover sheet. Therefore, it is placed on top and can be seen directly. Thus, it is a very attention-grabbing advertising placement.

# Banderole

A true eyecatcher! With a banderole around the BODYMEDIA trade magazines your advertisement will be immediately visible to every reader of the magazine. This powerful form of promotion ensures the best possible perception of your advertisement.

1/2 Page	148 mm x (466 mm + 2x waist width) + 3 mm bleed	5,990 €
2/3 Page	198 mm x (466 mm + 2x waist width) + 3 mm bleed	6,690 €

**BINDING** The binding width varies according to the number of pages of the edition. The exact binding width is available on request.

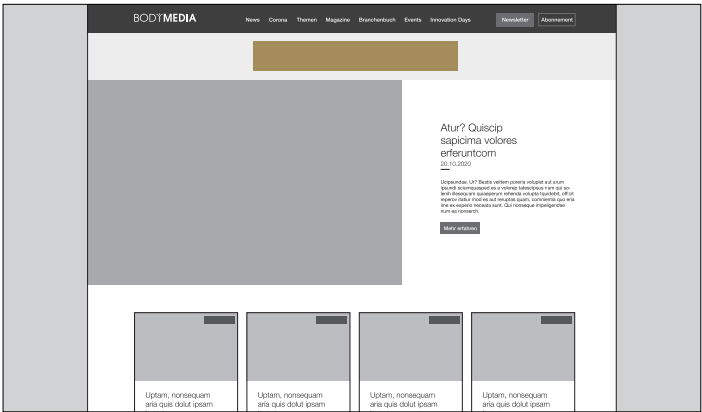

**ADHESIVE SURFACE** Only the background may be in this area, no important elements such as logo, text or important graphics.

The deadline for the banderole aligns with the advertising deadline. Other special formats such as inserts, posters, etc. are available on request. A list of suitable contacts can be found at the end of the media kit.

# Data delivery

## PRINT

### Data delivery

The delivery of pictures, texts and files is done by e-mail, dropbox or WeTransfer. Open files can be imported from InDesign, Illustrator and Photoshop and then will be processed. It is important to note that the document must include all fonts and pictures or they are additionally supplied.

Text files should preferably be sent in Office documents. Coreldraw files cannot be processed. Images must be converted in the formats tif, jpg or eps.

### Pictures

Images used for printing should exclusively be submitted in CMYK. Other colour profiles should neither be attached nor embedded. All used images must have a resolution of at least 300 dpi. The resolution for line drawings is set at 1,200 dpi.

### Layout / print data

Documents must be created in the final format plus bleed. Please note our format templates on page 7. For designs, that are printed right to the edge of the document, the bleed allowance at all edges must be taken into account. Those elements must be extended to the edge of the bleed. For text and other elements, that are not supposed to be cut off, the safety clearance of at least 5 mm to the edge of the final format must be maintained. Make sure that white areas are filled by a white background.

### Font

Black text should always be 100% black without registration marks. Be careful not to use any True Type fonts. Fonts must be embedded or converted into character paths. Consider, that the font is still recognisable and clearly readable after scaling the document format.

### Line width

Make sure that the lines used in your layout are not too thin.

Positive lines (dark lines on light background): at least 0.25 pt.

Negative lines (light lines on dark background): at least 0.5 pt.

### Print PDF

The preferred format for data delivery is PDF/X-3. The used transparencies should be delivered in a PDF/X-4 format. Print file cut marks must always be added. These are not added in the document itself but will be selected during export.

## ONLINE

### File formats and target link

Possible banner formats are jpg, png or gif. Concerning the News Corner Cut In, mp4, mov and wav are also possible. Please include the destination link for each advertising material individually.

### Data delivery

By e-mail, dropbox, WeTransfer or Google Drive
